

ABSTRACT OF THE DISCLOSURE

The method of managing delivery goods comprises the steps of receiving identification information for delivery goods entered by a deliverer when a recipient of the  
5 delivery goods is not at home, extracting delivery goods information and recipient information relevant to the delivery-goods identification information from a storage unit which stores the delivery goods information and the recipient information corresponding to the delivery goods  
10 information, and notifying the recipient of the delivery goods information based on the recipient information.
